## Stevens EP™-Fleece Water-Based Bonding Adhesive

---

---

### General Description

Stevens EP™-Fleece Water-Based Bonding Adhesive is a synthetic polymer-based adhesive that is designed for bonding Stevens EP™-Fleece Membranes to wood, metal, concrete, and approved roof insulation board surfaces.

### Technical Specifications

**Base:** Water based

**Color:** White.

**Solids content:** 50 +/- 1%.

**Viscosity:** 10,000 cps.

**VOC:** 152 g/l

**Gross Weight:** 42 lbs. (19 kg) per 5-gallon (19 l) pail.

### Packaging\* & Storage

Stevens EP-Fleece Water-based Bonding Adhesive comes in 5-gallon (19 l), removable-top containers, packaged 45 containers per pallet. Close containers tightly after each use. Store in temperatures between 60 and 90°F (15.6 and 32.2°C), and in a well-ventilated area. DO NOT ALLOW PRODUCT TO FREEZE. Keep away from heat, sparks and open flames.

### Precautions

This component of the Stevens Roofing System is water-based, and will freeze if exposed to temperatures below 32 °F ( 0°C). Adequate ventilation must be provided.

Stevens EP-Fleece Water-based Bonding Adhesive is **NOT** approved for use with other Stevens membrane types.

### Note:

The Material Safety Data Sheet (MSDS) for this product is available on line at [www.stevensroofing.com](http://www.stevensroofing.com) or the Stevens Technical Manual CD-Rom.
